

OFFICE OF THE VICE PRESIDENT – RESEARCH AND INNOVATION

OFFICE OF THE PRESIDENT
1111 Franklin Street, 11th Floor
Oakland, California 94607-5200

September 16, 2025

CHANCELLORS
ACADEMIC COUNCIL CHAIR PALAZOGLU
LABORATORY DIRECTOR WITHERELL
ANR VICE PRESIDENT HUMISTON

Re: Systemwide Review of Proposed Presidential Policy on Responding to Allegations of Research Misconduct

Dear Colleagues:

Enclosed for systemwide review is the Presidential Policy on Responding to Allegations of Research Misconduct (UC Research Misconduct Policy). The proposed policy updates the current [University Policy on Integrity in Research](#).

On September 6, 2024, the Office of Research Integrity (ORI) within the Department of Health and Human Services (HHS) issued revised regulations on research misconduct, [Public Health Service Policies on Research Misconduct](#) (PHS Regulations). These regulations establish the responsibilities of institutions that receive PHS funding to respond to allegations of research misconduct. The PHS Regulations went into effect on January 1, 2025, and apply to institutions starting January 1, 2026.

The UC Research Misconduct Policy includes the following:

- Publication in the correct format for UC Presidential Policies.
- Adoption of definitions related to research misconduct provided in the Federal Policy on Research Misconduct.
- Restatement that UC is committed to maintaining the integrity of scholarship and research, responding to allegations of research misconduct, and to fostering a climate conducive to research integrity in accordance with the UC Statement of Ethical Values.
- A Procedures Section that directs Locations to implement local policies and procedures for responding to allegations of research misconduct, including complying with federal policies and conditions of extramural awards.

In revising the proposed policy, RPAC engaged with UC Legal and campus Research Integrity Officers (RIOs) to revise the UC Research Misconduct Policy.

Systemwide Review

Systemwide review is a public review distributed to the Chancellors, the Chair of the Academic Council, the Director of the Lawrence Berkeley National Laboratory, and the Vice President of

Agriculture and Natural Resources requesting that they inform the general University community, especially affected employees, about policy proposals. Systemwide review also includes a mandatory, 90-day full Senate review.

Employees should be afforded the opportunity to review and comment on the draft policy. Attached is a Model Communication which may be used to inform non-exclusively represented employees about these proposals. Systemwide Labor Relations at the Office of the President is responsible for informing the bargaining units representing union membership about policy proposals.

We would appreciate receiving your comments no later than **December 19, 2025**. Please submit your comments to RPAC@ucop.edu. If you have any questions, please contact Timothy Miller at Timothy.Miller@ucop.edu.

Sincerely,

Theresa A. Maldonado, Ph.D., P.E.
Vice President, Research & Innovation
University of California, Office of the President
President, American Association for the
Advancement of Science

IV.	COMPLIANCE/RESPONSIBILITIES.....	3
V.	PROCEDURES.....	3
VI.	RELATED INFORMATION/RESOURCES.....	4
VII.	FREQUENTLY ASKED QUESTIONS.....	4
VIII.	REVISION HISTORY.....	4

I. POLICY SUMMARY

This Policy affirms UC's commitment to integrity in research. It implements the Federal Policy on Research Misconduct issued by the Office of Science and Technology Policy (OSTP) in December 2000 ("[Federal Policy](#)").¹ This Policy also intends to satisfy the research misconduct requirements of the U.S. Department of Health and Human Services (DHHS) ("[PHS Policies](#)"),² the National Science Foundation ("[NSF Policy](#)"),³ and other federal agencies.

II. DEFINITIONS

UC adopts definitions related to research misconduct provided in the [Federal Policy](#). For convenience, the definitions of some terms are repeated below. Where a sponsor adopts a definition that differs from the Federal Policy, UC will use the sponsor's definition for responding to allegations of research misconduct for research funded by that sponsor.

Location means University of California campuses, University of California managed hospitals and medical centers, Division of Agriculture and Natural Resources (ANR), Lawrence Berkeley National Laboratory, and the Office of the President.

Research Misconduct means fabrication, falsification, or plagiarism in proposing, performing, or reviewing research, or in reporting research results.

Research means a systematic experiment, study, evaluation, demonstration, or survey designed to develop or contribute to general knowledge (basic research) or specific knowledge (applied research).⁴

III. POLICY TEXT

UC is committed to maintaining the integrity of scholarship and research, responding to allegations of research misconduct, and to fostering a climate conducive to research integrity in accordance with the [UC Statement of Ethical Values](#). Such integrity includes not only the avoidance of wrongdoing, but also the rigor, carefulness, and accountability that are hallmarks of good scholarship.

All those engaged in research are expected to pursue the advancement of knowledge while meeting the highest standards of honesty, accuracy, and objectivity. Open publication and discussion, emphasis on quality of research, appropriate supervision, maintenance of accurate and detailed research procedures and results, and suitable assignment of credit and responsibility for research and publications are essential for fostering intellectual honesty and integrity in research. Those who supervise research have a responsibility to maintain an environment that encourages these high standards.

¹ [Federal Policy on Research Misconduct](#), 65 Fed. Reg. 76260 (Dec. 6, 2000).

² [Public Health Service Policies on Research Misconduct](#), 42 C.F.R. § 93.25-.511 (Sept. 17, 2024).

³ [National Science Foundation, Research Misconduct](#), 45 C.F.R. § 689.

⁴ The Federal Policy does not provide a definition for "research." This definition of research is based on the definition of "research" in the [PHS Policies, § 93.232](#).

IV. COMPLIANCE/RESPONSIBILITIES

All members of the UC research community are expected to cooperate in reporting suspected research misconduct and in responding to allegations by acting in good faith, providing research records and other relevant information to Research Integrity Officers and other UC officials in the course of their review of allegations of research misconduct, participating in research misconduct proceedings, and refraining from retaliation or interference with a research misconduct proceeding.

Responsibilities

Chancellors, Laboratory Directors, the Vice President of ANR, or their designees, are responsible for the implementation of this Policy, including the consideration of initial allegations of research misconduct and, when necessary, initiation of formal inquiries and, if warranted, investigations. Chancellors, Laboratory Directors, the Vice President of ANR, or their designees, are also responsible for designating the individuals to serve as the Deciding Official and Research Integrity Officer at their respective Locations.

Deciding Officials are the Location-designated officials responsible for making final determinations of research misconduct findings. The same individual cannot serve as both the Deciding Official and the Research Integrity Officer.

Research Integrity Officers (RIOs) are the Location-designated officials responsible for compliance and implementation, including establishing appropriate procedures and documentation.

Principal Investigators have primary responsibility for the scientific integrity and management of the research project.⁵ They must:

1. Be knowledgeable about and follow all applicable institutional and U.S. government policies, requirements, and regulations regarding research misconduct.
2. Comply with their Location's policies and procedures implementing this Policy and any extramural contract and grant terms and conditions supporting their research.

V. PROCEDURES

Each Location must implement policies and procedures for responding to allegations of research misconduct. Such policies and procedures must comply with federal policies (where applicable). Locations should consider describing the local mechanisms that will be used for the imposition of appropriate sanctions or discipline when the allegation of misconduct has been substantiated. The process of making a final determination of research misconduct findings by the Deciding Official is separate from the process for imposing sanctions or discipline.

When extramural funds are involved, local guidelines and procedures must comply with the conditions of the award, including applicable Federal regulations or policies.⁶ Such Federal regulations may require specific reports to the sponsoring agency. Locations may develop different policies and procedures to address situations in which allegations of research

⁵ [University of California, Contract and Grant Manual, § 10-330](#).

⁶ For PHS and NSF, these are the Public Health Service Policies on Research Misconduct (42 CFR, Part 93) and the National Science Foundation regulations on Research Misconduct (45 CFR, Part 689), respectively.

misconduct arise in the context of non-federally-funded research, including non-extramurally-funded research.

Locations should provide researchers access to education and training on integrity in research designed to foster an environment that promotes integrity in research, and that encourages researchers to identify and report potential instances of research misconduct.

DRAFT

I. POLICY SUMMARY

This Policy affirms UC's commitment to integrity in research. It implements the Federal Policy on Research Misconduct issued by the Office of Science and Technology Policy (OSTP) in December 2000 ("Federal Policy").¹ This Policy also intends to satisfy the research misconduct requirements of the U.S. Department of Health and Human Services (DHHS) ("PHS Policies"),² the National Science Foundation ("NSF Policy"),³ and other federal agencies.

II. DEFINITIONS

UC adopts definitions related to research misconduct provided in the Federal Policy. For convenience, the definitions of some terms are repeated below. Where a sponsor adopts a definition that differs from the Federal Policy, UC will use the sponsor's definition for responding to allegations of research misconduct for research funded by that sponsor.

Location means University of California campuses, University of California managed hospitals and medical centers, Division of Agriculture and Natural Resources (ANR), Lawrence Berkeley National Laboratory, and the Office of the President.

Research Misconduct means fabrication, falsification, or plagiarism in proposing, performing, or reviewing research, or in reporting research results.

Research means a systematic experiment, study, evaluation, demonstration, or survey designed to develop or contribute to general knowledge (basic research) or specific knowledge (applied research).⁴

III. POLICY TEXT

UC is committed to maintaining the integrity of scholarship and research, responding to allegations of research misconduct, and to fostering a climate conducive to research integrity in accordance with the UC Statement of Ethical Values. Such integrity includes not only ~~Integrity in research includes not just~~ the avoidance of wrongdoing, but also the rigor, carefulness, and accountability that are hallmarks of good scholarship.-

All ~~personsthose~~ engaged in research ~~at the University~~ are ~~responsible for adhering~~ ~~expected~~ to ~~pursue the advancement of knowledge while meeting~~ the highest standards of ~~intellectual-honesty, accuracy, and integrity in research.~~ Faculty and other supervisors of research activities have a responsibility to create an environment which encourages those high-standards and integrity in research objectivity. Open publication and discussion, emphasis on quality of research, appropriate supervision, maintenance of accurate and detailed research procedures and results, and suitable assignment of credit and responsibility for research and publications are essential for fostering intellectual honesty and integrity in research. Those

⁴ The Federal Policy does not provide a definition for "research." This definition of research is based on the definition of "research" in the PHS Policies, § 93.232.

who supervise research have a responsibility to maintain an environment that encourages these high standards.

~~University policies set forth expectations for high standards of ethical behavior for faculty and students involved in research and provide procedures for addressing allegations of misconduct in research. Those policies and procedures are set forth in the Bylaws of the Academic Senate, the University Policy on Faculty Code of Conduct and the Administration of Discipline, and University Policies Applying to Campus Activities, Organizations, and Students—Part A, Student Conduct and Discipline. Procedures for administration of discipline also exist for other academic and staff employees in accordance with applicable personnel policies and collective bargaining agreements. (A list of University of California policies which pertain to integrity in research is attached.)~~

~~Misconduct means fabrication, falsification, plagiarism, or other practices that seriously deviate from those that are commonly accepted within the scholarly and scientific community for proposing, conducting, or reporting research. Misconduct does not include honest error or honest differences in interpretations or judgments of data.⁵~~

~~The University will continue to take prompt and vigorous action to investigate and address allegations of misconduct in research, based on the following principles:~~

- ~~■ Institutional and academic responsibility for self-regulation;~~
- ~~■ Mechanisms to protect to the greatest extent possible the due process rights of the accused, the interests of those making allegations, and the public interest;~~
- ~~■ The highest degree of confidentiality compatible with an effective response and applicable sponsor reporting requirements; and~~
- ~~Precautions against real or apparent conflict of interest.~~

Campus and Laboratory Implementation

~~Campuses and Laboratories shall have necessary guidelines and procedures to provide appropriate responses to allegations of misconduct in research. Such guidelines and procedures should specify how pertinent University policies and procedures will be used to address allegations of misconduct in research by faculty, students, and staff. When extramural funds are involved, local guidelines and procedures also should comply with conditions of the award, including applicable regulations issued by the sponsor of the~~

⁵ The definition of misconduct is based upon the regulations of the Public Health Service, Department of Health and Human Services (Responsibilities of PHS Awardee and Applicant Institutions for Dealing with and Reporting Possible Misconduct in Science, 42 CFR, Part 50, Subpart A), and it is consistent with the ethical principles and types of unacceptable conduct regarding scholarship listed in the Faculty Code of Conduct and with the types of misconduct specified in the University Policy on Student conduct and Discipline.

research. Such regulations include, but are not limited to, the ~~Responsibilities of PHS Awardee and Applicant Institutions for Dealing with and Reporting Possible Misconduct in Science (42 CFR, Part 50, Subpart A) and the National Science Foundation regulations on Misconduct in Science and Engineering Research (45 CFR, Part 689). Among their requirements, these regulations require specific reports to the sponsoring agency.~~

IV. COMPLIANCE/RESPONSIBILITIES

All members of the UC research community are expected to cooperate in reporting suspected research misconduct and in responding to allegations by acting in good faith, providing research records and other relevant information to Research Integrity Officers and other UC officials in the course of their review of allegations of research misconduct, participating in research misconduct proceedings, and refraining from retaliation or interference with a research misconduct proceeding.

Responsibilities

~~Chancellors and, Laboratory Directors, the Vice President of ANR, or their designees, shall be~~ responsible for the implementation of this Policy, ~~which may include including~~ the consideration of initial ~~reports~~ allegations of research misconduct and, when necessary, ~~the referral or~~ initiation of formal inquiries and, if warranted, investigations. ~~Local guidelines and procedures should clarify available mechanisms for imposing appropriate sanctions or discipline on individuals when the allegation of misconduct has been substantiated.~~ Chancellors ~~and, Laboratory Directors, the Vice President of ANR, or their designees, are~~ also responsible for designating the individuals to serve as the Deciding Official and Research Integrity Officer at their respective Locations. ~~shall refer to the University Policy and Procedures for Reporting Improper Governmental Activities and Protection Against Retaliation for Reporting Improper Activities to ensure coordination of allegations of misconduct which may be reported under that Policy and to advise on the procedures to protect against retaliation.~~

~~Copies of local guidelines and procedures shall be sent to the Senior Vice President--Academic Affairs for review as to compliance with this Policy.~~

Deciding Officials are the Location-designated officials responsible for making final determinations of research misconduct findings. The same individual cannot serve as both the Deciding Official and the Research Integrity Officer.

Research Integrity Officers (RIOs) are the Location-designated officials responsible for compliance and implementation, including establishing appropriate procedures and documentation.

Principal Investigators have primary responsibility for the scientific integrity and management of the research project.⁶ They must:

1. Be knowledgeable about and follow all applicable institutional and U.S. government policies, requirements, and regulations regarding research misconduct.

⁶ University of California, Contract and Grant Manual, § 10-330.

2. Comply with their Location's policies and procedures implementing this Policy and any extramural contract and grant terms and conditions supporting their research.

V. PROCEDURES

Each Location must implement policies and procedures for responding to allegations of research misconduct. Such policies and procedures must comply with federal policies (where applicable). Locations should consider describing the local mechanisms that will be used for the imposition of appropriate sanctions or discipline when the allegation of misconduct has been substantiated. The process of making a final determination of research misconduct findings by the Deciding Official is separate from the process for imposing sanctions or discipline.

When extramural funds are involved, local guidelines and procedures must comply with the conditions of the award, including applicable Federal regulations or policies.⁷ Such Federal regulations may require specific reports to the sponsoring agency. Locations may develop different policies and procedures to address situations in which allegations of research misconduct arise in the context of non-federally-funded research, including non-extramurally-funded research.

Locations should provide researchers access to education and training on integrity in research designed to foster an environment that promotes integrity in research, and that encourages researchers to identify and report potential instances of research misconduct.

**CHANCELLORS
LABORATORY DIRECTORS
SENIOR VICE PRESIDENT--ADMINISTRATION
VICE PRESIDENT--AGRICULTURE AND NATURAL RESOURCES**

Dear Colleagues:

Enclosed is the University Policy on Integrity in Research. This Policy, which is effective immediately, applies to all employees and students who engage in research activities in the University of California.

The Policy reaffirms the University's commitment to integrity in research and calls for local guidelines and procedures for addressing allegations of misconduct in research. When extramural funds support research activities, local guidelines and procedures should ensure compliance with conditions of the award, including applicable regulations issued by the sponsor of the research. Additionally, local guidelines and procedures also may address issues such as the responsibilities of research supervisors, assignment of credit for publications, training of research apprentices, education on research ethics, requirements for recordkeeping of experimental procedures, and data retention.

The Policy has been developed through extensive review with the campuses, the Laboratories, and the Academic Senate, including the opportunity for employees and employee organizations to comment. Discussions with the Academic Senate should continue at the campus level during the development and implementation of local guidelines and procedures.

Employees and students involved in research should be informed of this Policy and of the applicable regulations of the sponsoring agencies.

Thank you for your advice and cooperation in developing this Policy.

Sincerely,
David Pierpont Gardner

UNIVERSITY POLICY ON INTEGRITY IN RESEARCH

Policy

It is longstanding policy of the University of California to encourage and maintain the highest ethical standards in research. This Policy reaffirms the University's commitment to integrity in research.

Integrity in research includes not just the avoidance of wrongdoing, but also the rigor, carefulness, and accountability that are hallmarks of good scholarship. All persons engaged in research at the University are responsible for adhering to the highest standards of intellectual honesty and integrity in research. Faculty and other supervisors of research activities have a responsibility to create an environment which encourages those high standards and integrity in research. Open publication and discussion, emphasis on quality of research, appropriate supervision, maintenance of accurate and detailed research procedures and results, and suitable assignment of credit and responsibility for research and publications are essential for fostering intellectual honesty and integrity in research.

University policies set forth expectations for high standards of ethical behavior for faculty and students involved in research and provide procedures for addressing allegations of misconduct in research. Those policies and procedures are set forth in the Bylaws of the Academic Senate, the University Policy on Faculty Code of Conduct and the Administration of Discipline, and University Policies Applying to Campus Activities, Organizations, and Students--Part A, Student Conduct and Discipline. Procedures for administration of discipline also exist for other academic and staff employees in accordance with applicable personnel policies and collective bargaining agreements. ([A list of University of California policies which pertain to integrity in research is attached.](#))

Misconduct means fabrication, falsification, plagiarism, or other practices that seriously deviate from those that are commonly accepted within the scholarly and scientific community for proposing, conducting, or reporting research. Misconduct does not include honest error or honest differences in interpretations or judgments of data.¹

The University will continue to take prompt and vigorous action to investigate and address allegations of misconduct in research, based on the following principles:

¹ The definition of misconduct is based upon the regulations of the Public Health Service, Department of Health and Human Services (Responsibilities of PHS Awardee and Applicant Institutions for Dealing with and Reporting Possible Misconduct in Science, 42 CFR, Part 50, Subpart A), and it is consistent with the ethical principles and types of unacceptable conduct regarding scholarship listed in the Faculty Code of Conduct and with the types of misconduct specified in the University Policy on Student conduct and Discipline.

- Institutional and academic responsibility for self-regulation;
- Mechanisms to protect to the greatest extent possible the due process rights of the accused, the interests of those making allegations, and the public interest;
- The highest degree of confidentiality compatible with an effective response and applicable sponsor reporting requirements; and
- Precautions against real or apparent conflict of interest.

Campus and Laboratory Implementation

Campuses and Laboratories shall have necessary guidelines and procedures to provide appropriate responses to allegations of misconduct in research. Such guidelines and procedures should specify how pertinent University policies and procedures will be used to address allegations of misconduct in research by faculty, students, and staff. When extramural funds are involved, local guidelines and procedures also should comply with conditions of the award, including applicable regulations issued by the sponsor of the research. Such regulations include, but are not limited to, the Responsibilities of PHS Awardee and Applicant Institutions for Dealing with and Reporting Possible Misconduct in Science (42 CFR, Part 50, Subpart A) and the National Science Foundation regulations on Misconduct in Science and Engineering Research (45 CFR, Part 689). Among their requirements, these regulations require specific reports to the sponsoring agency.

Chancellors and Laboratory Directors, or their designees, shall be responsible for implementation of this Policy, which may include the consideration of initial reports of misconduct and, when necessary, the referral or initiation of formal investigations. Local guidelines and procedures should clarify available mechanisms for imposing appropriate sanctions or discipline on individuals when the allegation of misconduct has been substantiated. Chancellors and Laboratory Directors, or their designees, shall refer to the University Policy and Procedures for Reporting Improper Governmental Activities and Protection Against Retaliation for Reporting Improper Activities to ensure coordination of allegations of misconduct which may be reported under that Policy and to advise on the procedures to protect against retaliation.

Copies of local guidelines and procedures shall be sent to the Senior Vice President--Academic Affairs for review as to compliance with this Policy.

MODEL COMMUNICATION

The University of California Office of the President invites comments on the proposed Presidential Policy on Responding to Allegations of Research Misconduct (UC Research Misconduct Policy). The proposed policy updates the current [University Policy on Integrity in Research](#).

On September 6, 2024, the Office of Research Integrity (ORI) within the Department of Health and Human Services (HHS) issued revised regulations on research misconduct, [Public Health Service Policies on Research Misconduct](#) (PHS Regulations). The PHS Regulations apply to institutions starting January 1, 2026.

The UC Research Misconduct Policy includes the following:

- Publication in the correct format for UC Presidential Policies.
- Adoption of definitions related to research misconduct provided in the Federal Policy on Research Misconduct.
- Restatement that UC is committed to maintaining the integrity of scholarship and research, responding to allegations of research misconduct, and to fostering a climate conducive to research integrity in accordance with the UC Statement of Ethical Values.
- A Procedures Section that directs Locations to implement local policies and procedures for responding to allegations of research misconduct, including complying with federal policies and conditions of extramural awards.
